

# Lifetime Containment & Equipment Warranty

Fully Computerized Electronic Hidden Dog Fence

## SAFER BY DESIGN GREATER PEACE OF MIND.

 Pet Stop of North Georgia, LLC Guarantees that your current dog and any other dog you ever own will be safely contained or we refund 100% of your purchase price. This lifetime containment Guarantee is transferable to the next home owner. If you sell your home, you can transfer your Pet Stop System to your purchaser or take your electronics with you to your next home. The Re-install, at your next home, will cost about \$600.00

 Yes, Pet Stop dog containment systems are technologically savvy and made in America, but at the end of the day, the Product we are Selling and what you really care about is Lifetime, Safe Containment of your family's favorite pet! It is to this end that Adam and I work tirelessly. We have two clients, "the one who pays and the one who plays". We want both of you Happy!

 All Perimeter Technology, manufactured in American Hidden Dog Fence Products, are installed by Pet Stop of North Georgia with a lifetime unconditional warranty including: **Power Supply, Surge Protectors, Transmitter, Dog's Receiver and your System's Boundary Wire. Mike and Adam install only the first level components and NEVER install secondary products under any conditions. Our Business philosophy is, "once you install a Pet Stop Dog Fence, you will never pay for another component for your fence again."**

 **Service Calls** – We will work with you to prevent service calls at every opportunity. If we can save you money through troubleshooting with you over the phone, allowing you to swap out your equipment, make programming adjustments over the phone and helping you fix any problem that surfaces we are happy to do so! We do not just talk about it we do it!

 **The biggest challenge to your dog's safe containment**, after a collar too loose and a dead battery, is a cut boundary wire; Pet Stop North Georgia is the only company that guarantees the safe placement of your system's wire. It is the weak link in all underground dog fences systems including the Invisible Fence and Dog Watch Systems. The difference is, we guarantee your boundary wire. We install 6 inches deep, install your wire within 6 inches of sidewalks, drive ways and curbs protecting your wire from your landscapers. WE protect your wire in your lawn, through flower beds, drive ways and sidewalks. Adam and I go out of our way to never see you again!
