Multiple Dog programing: For families with more than one dog. Pet Stop allows you to match the sensitivity of each collar or vary it if necessary. This is particularly important for pets of different sizes (even cats) or for those who may need to stay farther behind the boundary than another pet. Pet Stop features one of a kind innovation and programing.

Low-Stress Training: A unique feature of Pet Stop's underground dog fence systems, is GentleSteps™ utilizing extremely low & adjustable stimulation levels, to train your pet faster and with less of the stress normally associated with other fence training methods. In fact, it is so effective that some of the nation's leading dog trainers use Pet Stop Ultra series systems exclusively for their choice in pet fencing.

Worry-Free Lifetime Warranty: On Your equipment, Your installation and Your dog's containment. Pet Stop of North Georgia's Warranty is unmatched by Invisible Fence or by Dog Watch, ask our competition when they come out to give their bid price. Not all Lifetime warranties are created equal, with Pet Stop, you will never buy another dog fence component for any reason unless you lose your dog's receiver.
